BIOMETRIKA

VOLUME 69

1982

Editor
D. R. COX

Business Manager
R. F. GALBRAITH

Associate Editors
J. A. Anderson
A. C. Atkinson
R. A. Bailey
R. M. Cormack
M. J. R. Healy
P. Newbold
D. Oakes
B. D. Ripley
S. D. Silvey
D. M. Titterington

PUBLISHED BY
BIOMETRIKA TRUST, UNIVERSITY COLLEGE LONDON

© 1982 Biometrika Trust ISSN 0006–3444

Typeset and printed in Great Britain by
John Wright & Sons (Printing) Ltd, at The Stonebridge Press, Bristol

Contents of Volume 69

PAGE

AGRAWAL, H. L. and PRASAD, J. Some methods of construction of balanced incomplete block designs with nested rows and columns 481

AMARI, S. Geometrical theory of asymptotic ancillarity and conditional inference 1

ANDERSON, J. A. and BLAIR, V. Penalized maximum likelihood estimation in logistic regression and discrimination 123

ANSLEY, C. F. and KOHN, R. A geometrical derivation of the fixed interval smoothing algorithm 486

ARGHAMI, N. R. and BILLARD, L. A modification of a truncated partial sequential procedure 613

ATKINSON, A. C. Optimum biased coin designs for sequential clinical trials with prognostic factors 61

BENEDETTI, J. K., LIU, P.-Y., SATHER, H. N., SEINFELD, J. and EPTON, M. A. Effective sample size for tests of censored survival data 343

BHATTACHARYA, P. K., GASTWIRTH, J. L. and WRIGHT, A. L. Two modified Wilcoxon tests for symmetry about an unknown location parameter. . 377

BILLARD, L. (*See* ARGHAMI, N. R.)

BLAIR, V. (*See* ANDERSON, J. A.)

BRETH, M. Nonparametric estimation for a symmetric distribution . . . 625

BROOKS, R. J. On the loss of information through censoring 137

BROWN, B. M. Cramér–von Mises distributions and permutation tests . . 619

BURRIDGE, J. Some unimodality properties of likelihoods derived from grouped data 145

CHAN, N. N. Linear structural relationships with unknown error variances . 277

CHAO, M. T. A general purpose unequal probability sampling plan . . . 653

CHEN, H. J. A new range statistic for comparisons of several exponential location parameters 257

COX, D. R. On the role of data of possibly lowered sensitivity 215

CUZICK, J. Rank tests for association with right censored data 351

ĆWIK, J., GOŁEMBIEWSKA, M., KOWALCZYK, T. and PLESZCZYŃSKA, E. Conceptual and statistical problems of sister dependence 513

DAVID, H. A. and GROENEVELD, R. A. Measures of local variation in a distribution: Expected length of spacings and variances of order statistics 227

DAVIS, C. E. (*See* HARRELL, F. E.)

DE GOOIJER, J. G. (*See* GODOLPHIN, E. J.)

DEMETS, D. L. and WARE, J. H. Asymmetric group sequential boundaries for monitoring clinical trials 661

EDWARDS, R. (*See* MARDIA, K. V.)

EKBOHM, G. On comparing variances in the paired case with incomplete data . 670

EPPS, T. W., SINGLETON, K. J. and PULLEY, L. B. A test of separate families of distributions based on the empirical moment generating function . . 391

EPTON, M. A. (*See* BENEDETTI, J. K.)

FAIRBANKS, K. and MADSEN, R. *P* values for tests using a repeated significance test design 69

FAREWELL, V. T. A note on regression analysis of ordinal data with variability of classification 533
FERREIRA, P. E. Estimating equations in the presence of prior knowledge . 667
FIELD, C. A. and HAMPEL, F. R. Small-sample asymptotic distributions of M-estimators of location 29
FISHER, N. I. and LEE, A. J. Nonparametric measures of angular-angular association 315
FLEMING, T. R. (*See* HARRINGTON, D. P.)
FLIGNER, M. A. and RUST, S. W. A modification of Mood's median test for the generalized Behrens–Fisher problem 221
FULLER, W. A. (*See* WOLTER, K. M.)
GABRIELSEN, G. On the unimodality of the likelihood for the Cauchy distribution: Some comments 677
GASTWIRTH, J. L. (*See* BHATTACHARYA, P. K.)
GODOLPHIN, E. J. and de GOOIJER, J. G. On the maximum likelihood estimation of the parameters of a Gaussian moving average process 443
GOŁEMBIEWSKA, M. (*See* ĆWIK, J.)
GOULD, A. L. and PECORE, V. J. Group sequential methods for clinical trials allowing early acceptance of H_0 and incorporating costs 75
GRAY, R. J. (*See* PIERCE, D. A.)
GROENEVELD, R. A. (*See* DAVID, H. A.)
GUERRERO, V. M. and JOHNSON, R. A. Use of the Box–Cox transformation with binary response models 309
GUPTA, V. K., NIGAM, A. K. and KUMAR, P. On a family of sampling schemes with inclusion probability proportional to size 191
GUYON, X. Parameter estimation for a stationary process on a d-dimensional lattice 95
HALL, D. L. and JOINER, B. L. Representations of the space of distributions useful in robust estimation of location 55
HALL, P. Cross-validation in density estimation 383
HALL, P. Improving the normal approximation when constructing one-sided confidence intervals for binomial or Poisson parameters 647
HALPERN, J. (*See* MILLER, R.)
HAMPEL, F. R. (*See* FIELD, C. A.)
HANNAN, E. J. and RISSANEN, J. Recursive estimation of mixed autoregressive-moving average order 81
HARRELL, F. E. and DAVIS, C. E. A new distribution-free quantile estimator . 635
HARRINGTON, D. P. and FLEMING, T. R. A class of rank test procedures for censored survival data 553
HETTMANSPERGER, T. P. (*See* SHOEMAKER, L. H.)
HIROTSU, C. Use of cumulative efficient scores for testing ordered alternatives in discrete models 567
HORN, P. S. The finite distribution of t statistics based on two symmetric order statistics as a sum of orthant probabilities 681
HSUAN, F., HWANG, F. K. and PARNES, M. A class of selection problems for which more sampling is more informative 280
HWANG, F. K. (*See* HSUAN, F.)

JEYARATNAM, S. A sufficient condition on the covariance matrix for F tests in linear models to be valid 679
JOHNSON, N. L. (*See* TADIKAMALLA, P. R.)
JOHNSON, R. A. (*See* GUERRERO, V. M.)
JOINER, B. L. (*See* HALL, D. L.)
KEEFE, T. J. On the relationship between two tests for homogeneity of the marginal distributions in a two-way classification 683
KENT, J. T. Robust properties of likelihood ratio tests 19
KIEFER, N. M. Testing for dependence in multivariate probit models . . 161
KOHN, R. (*See* ANSLEY, C. F.)
KOUTROUVELIS, I. A. Estimation of location and scale in Cauchy distributions using the empirical characteristic function 205
KOWALCZYK, T. (*See* ĆWIK, J.)
KOZIOL, J. A. A class of invariant procedures for assessing multivariate normality 423
KUDÔ, A. and YAO, J. S. Tables for testing ordered alternatives in an analysis of variance without replications 237
KUMAR, P. (*See* GUPTA, V. K.)
